Kyle Goines • Front-end Engineer

About

I've been leading and developing responsive, accessibility-driven, award-winning, web-first user interfaces and applications for ten years.

Experience

AREA 17 - **Senior Web Engineer** 2020 - 2023

- Led front-end mentorship program and on-boarded junior front-end developers.
- Successfully architected solutions for accessible enterprise design systems for clients including the New York Times, Nike, and the Getty Museum
- Worked in multiple languages including Typescript, Node, and PHP, across frameworks including React, Next, Vue, and Nuxt.
- Worked remotely with back-end and front-end teams across multiple countries and time zones.

AdhereTech - **Lead Front-end Engineer** 2018 - 2020

- Managed a team of front-end mid-level and junior engineers.
- Responsible for all front-end repos and final code reviews.
- Converted legacy application from Angular to React.
- Added unit and component tests for UI library and existing legacy applications.
- Worked directly with product manager and back-end lead to deliver features and QA on time.
- Shared releases and timelines with product stakeholders

Sullivan - **Senior Front-end Engineer** 2016 - 2018

- Webby award winner for SAG-AFTRA.
- Built flexible and extendable design systems for clients including Bloomberg, Brown University and Crown Castle using frameworks like React and Vue.
